PROFESSIONAL SUMMARY

B.Tech Information Technology student (CGPA: 9.37, Top 5% of cohort) with experience across three full-stack internships building scalable web applications using React, Next.js, and Node.js. Skilled in RESTful API integration, CI/CD pipelines, and modular application development, with strong knowledge of SDLC and Agile practices.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, TypeScript, Python, Node.js, React, Next.js, React Native, Vite, Tailwind CSS

DevOps & Infrastructure: Docker, Docker Compose, Jenkins, GitHub Actions, Nginx, Firebase, RESTful APIs, CI/CD Pipelines

Tools & Practices: Git, GitHub, Gemini API, SDLC, Agile Methodologies, Modular Architecture, Workflow Automation, Dashboard Development, Performance Optimization

WORK EXPERIENCE

Full Stack Development Intern | Sky Brisk (Remote) Feb 2026 – Apr 2026

- Engineered a modular ERP application supporting complex end-to-end enterprise workflows.
- Designed reusable application modules and optimized state management to improve maintainability and performance.

Web Development Intern | RM Kart (Remote) Feb 2026 – Mar 2026

- Developed the ShopSphere e-commerce platform with advanced product filtering and dynamic user interactions.
- Improved frontend load times by 30% through Vite build optimization and component tuning.

Web Development Intern | Corizo Edutech (Remote) Jun 2025 – Aug 2025

- Implemented a CRUD-based web application with end-to-end REST API integration.
- Utilized Firebase Authentication and Real-Time Database for secure, low-latency data management.

SELECTED PROJECTS

AutoShip Pipeline | DevOps CI/CD Automation Platform

- Architected a CI/CD ecosystem using Jenkins and GitHub Actions to automate build, testing, and deployment workflows.
- Implemented Docker multi-stage builds, Nginx reverse proxy, and monitoring dashboards for reliable software delivery.

ERP Application | Enterprise Workflow Management System

- Engineered a modular ERP platform supporting end-to-end business workflows through scalable architecture.
- Developed reusable modules and dashboard-driven interfaces to streamline enterprise operations.

Prashikshan AI Platform

- Built an AI-powered learning platform integrating Gemini API with modular, scalable architecture.

EDUCATION

B.Tech in Information Technology | Saveetha School of Engineering (SIMATS) 2024 – Present

- CGPA: 9.37 / 10.0 (Top 5% of Cohort)

CERTIFICATIONS

- NPTEL Elite Certification – Introduction to Internet of Things
